

# Danny Nguyen

## Front-End Developer

dt.ngu95@gmail.com

Surrey, B.C.

236-412-2161

## Profile

- Detail-oriented front-end developer motivated through problem solving.
- Passionate about developing user-centric business solutions with an emphasis on usability and accessibility.
- Takes pride in always learning and improving based on feedback from others

## Experience

**Front End Web Developer Intern**      Apr 2022 – May 2022  
Goopter Holdings Ltd      Burnaby, B.C.  
• Developed several new features based on prototypes created by UI/UX designers to satisfy our clients' needs.  
• Tested existing features, recording any bugs and making tickets for them to ensure they are worked on in a timely manner.  
• Verified 5+ pull requests daily from other developers to learn more about code quality and standards, as well as give feedback on any potential improvements.

**Fisherman**      Oct 2018 – Dec 2019  
Baby Blue      Prince Rupert, B.C.  
• Cut 100+ lbs of bait a day quickly to fill bait buckets and to resume gathering crab.  
• Hauled 300+ traps a day, gathering Dungeness crab caught within the traps.  
• Measured hundreds of crabs based on size, softness, and gender to ensure they were legal to bring back.

**Produce Clerk**      Jun 2018 – Oct 2018  
Safeway Inc.      Prince Rupert, B.C.  
• Cut, packaged, and stocked over 50 salads a day for customers to purchase.  
• Managed inventory based on customer needs.  
• Assisted customers with locations and status of produce items.

**Cashier/Customer Service/File Maintenance**      Sept 2015 – Aug 2016  
Safeway Inc.      Prince Rupert, B.C.  
• Operated a POS cash register quickly and efficiently to serve 100+ people daily to ensure customer satisfaction.  
• Handled roughly 5 large grocery orders weekly, working with managers to secure proper amounts of inventory.  
• Maintained 500+ shelf prices to avoid loss of profits.

## Education

**Digital Design and Development**  
Diploma with distinction  
**British Columbia Institute of Technology**  
Sept 2020 – May 2022  
Built a foundation in designing and developing interactive and dynamic applications across various digital media platforms.
